Subject: EPA USSL Zone 3 Remediated Properties Ready for LSLR 6/14

Hi Winna and Rocky,

Attached is a spreadsheet with information EPA has collected to help coordinate with Lead Service Line Replacement in Zone 3 of the USS Lead Site (bounded by Kennedy on the East, E Chicago to the North, Parrish on the West, and 149th Place on the South).

To date, 6/14, excavation has been completed at 24 properties. Soil contamination has been removed at these properties and they are ready for lead service line replacement. Please let me know if you have any questions.

Thank you!
 Kat
